

August 13th

Dear people of church

At first I would like to give and say extremely thanks to you all as you have made me strong enough to stand in my own leg. Because of you all I have learned to live my life and understanding the meaning of life. There's no any words to say and write that how much you have helped me. I don't know that how to give you and appreciate my thanks. Because of you I am upto here and now I am able to learn, write and make me myself happy. If you have not help me then I think my life may be full of darkness and I may be a blind with my two eyes. You are my god as you have lead me to the light and fresh environment by removing all the dark things from my life. I hope in my each and every step I will keep on getting success. From 4 to 12 you have helped me to read in school as well as college too. Once again I would

like to thanks you alot. Now, I am success in my each and every step.

Even I am able to read and do everything. I don't know if you were not helping me then my life may be full of desertiness and darkness. So, I have written this letter of thanks to you all. actually I don't know the methods of giving thanks to you even I am trying.

I hope you will be here soon and I can spend the time with you. Although it may be short time or long time it doesn't matter for me. I am waiting for you every-time to be here in Nepal.

Thank you so much.

Yours Sincerely,
Name :- Amrita Pathak
Class :- Twelve
